

ENCAPSA BERM DATA SHEET

Encapsa Berms completely encapsulate drums, providing 360 degree protection from drips and spills. They use a simple roll-top enclosure to seal off the drum from the outside world. Encapsa Berms are outfitted with lift d-rings eliminating the danger of perforating the berm with forklifts or other equipment.

WHAT YOU NEED TO KNOW

- 360 degree spill protection
- 22 and 30 oz PVC fabric construction
- 4 built-in lifting d-rings
- Proudly made in the USA
