

WASH DOWN BERM DATA SHEET

AIRE Environmental Wash Down Berms provide a controlled surface for pressure washing equipment. They were originally designed for washing boats, but can be used to contain mud and debris from other types of equipment as well.

WHAT YOU NEED TO KNOW

- Quick and easy to deploy - No tools required!
- 22 oz. PVC fabric
- Fastest and most economical way to control water collection and over spray
- 100% usable interior
- Roll-in-roll-out round closed cell foam walls
- Reusable
- Folds up into a small package for storage and transportation
- Proudly made in the USA
- Wash Down Berms are designed to contain environmental hazards that may wash off of equipment, including boats, fuel tanks, totes, small drums, batteries, compressors, generators, hoses, drum pallets, fracking equipment, wheeled equipment etc.
- EPA, OSHA, NPDES compliant. Meets 40 CFR 112.7, 40 CFR 122.26, 40 CFR 264.175
- Standard 1 year warranty
