

WELLHEAD BERM DATA SHEET

The Wellhead Berm provides 360 degrees of drip and spill containment for oil wellheads. Its slip resistant walking surface protects workers servicing the well. The Wellhead Berm also comes standard with a hood that wraps around the wellhead to further reduce ground exposure. We match the harsh conditions of oilfields with a sturdy 30 oz. geomembrane that is designed to withstand heavy UV exposure, wide temperature variations and harsh chemicals.

WHAT YOU NEED TO KNOW

- 360 degree wellhead drip protection.
- 30 oz. chemical resistant material
- Built-in anti-slip surface protects workers servicing the well
- Included hood eliminates ground exposure
- EPA, OSHA, NPDES compliant. Meets 40 CFR 112.7, 40 CFR 122.26, 40 CFR 264.175.
- Built-in handles facilitate repositioning after deployment
- UV Resistant
- Thermal welded 1.5" seams.
- No tools required for setup
- Includes basic repair kit.
- Standard 1 year warranty
- Proudly made in the USA
